Welcome

YBM introduction and consent

1 **MyPhone/MyBrain Intervention Study**

Information · `study_intro` · `ybm_intro_consent.intro`

Welcome back!

You are now completing the follow-up questionnaire for the My Phone My Brain study after your social media break.

We will ask you some questions about your wellbeing and digital behaviour so that we can compare your responses before and after the break. Your information will continue to be handled confidentially and stored securely in accordance with University of Leeds data-protection procedures.

Taking part remains voluntary. You can stop at any time or ask a member of the research team if anything is unclear.

This questionnaire should take approximately 10 minutes to complete. Please answer the questions carefully and as accurately as you can.

---

2 **Please tap each statement to show you understand and agree to it, and that you consent to take part. We'll move on once they're all ticked.**

Statements to tick · Required · `consent` · `ybm_intro_consent.consent`

Please tap each statement below to confirm that you understand and agree to it, and that you consent to take part in the study. We will move on once all statements are ticked.

As part of this study, we will collect questionnaire responses, laboratory data such as EEG, ECG and eye-tracking data, and information about your smartphone and social media use as described in the study information.

Your identifying information will be stored separately from your research data and used only where needed to manage your participation and link your study data using your participant ID.

1. I have previously provided informed consent to take part in this study, and I am happy to continue with the follow-up questionnaire and second laboratory session.
2. I understand that I am free to withdraw at any time without giving any reason and without there being any negative consequences

Moves on by itself once every statement is ticked.

---

3 **Why your answers matter**

Information · `why_accurate` · `ybm_intro_consent.why_it_matters`

There are no right or wrong answers here

What you tell us goes into research on how sleep, screens and feelings fit together for people your age, and on what actually helps. That only works if the answers are really yours, including the ones that aren't flattering.

A rushed or made-up answer doesn't just lose one number. It makes the whole picture slightly less true — for everyone the research is meant to help.

So take your time. And if you'd rather not answer something, leave it blank — that's always allowed.

About you

YBM participant identifiers

4 **First Name**

Short text · Required · `first_name` · `ybm_identity.first_name`

5 **Last Name**

Short text · Required · `last_name` · `ybm_identity.last_name`

6 **What's your date of birth?**

Date · Required · `dob` · `ybm_identity.dob`

7 **What's your home address?**

Form · Asked (can be skipped) · `home_address` · `ybm_identity.home_address`

The address you live at most of the time. If you live in more than one home, put the one you stay at most. Fill in what you know — it's fine to leave out anything you're not sure of.

- Postcode
- House number or name
- Street

YBM demographics

8 **Are you currently taking any prescribed medication for a mental health or psychiatric condition?**

Single choice · Required · `mh_medication` · `ybm_demographics.medication`

For example, antidepressants. We only use this to describe who took part — it never affects whether you can take part, and it is not shared with anyone else.

1 Yes

2 No

YBM EEG practicalities

9 **Which of these is most like your own hair?**

Single choice · Required · `hair_type` · `ybm_eeg_practical.hair_type`

Pick the one closest to yours — it helps us fit the EEG cap. Choose just one.

1. Straight, fine
2. Straight, medium
3. Straight, coarse
4. Loose waves
5. Defined waves
6. Strong waves
7. Loose curls
8. Springy curls
9. Tight curls
10. Soft coils
11. Zig-zag coils
12. Tight coils

Hands and standing

MacArthur Scale of Subjective Social Status – Adult Version

10 **Where would you be on this ladder?**

Ladder · Asked (can be skipped) · `sss_society` · `macarthur_sss_adult.society`

Think of this ladder as representing where people stand in society in the UK.

At the top are the people who are best off — those who have the most money, the most education, and the most respected jobs.

At the bottom are the people who are worst off — those who have the least money, the least education, and the least respected jobs, or no job.

Where would you place yourself on this ladder at this time in your life?

10 rungs

---

11 **Where would you be on this ladder?**

Ladder · Asked (can be skipped) · `sss_community` · `macarthur_sss_adult.community`

Think of this ladder as representing where people stand in their communities.

People define community in different ways. Please think about the community that is most meaningful to you.

At the top of the ladder are the people who have the highest standing in their community. At the bottom are the people who have the lowest standing.

Where would you place yourself on this ladder at this time in your life?

10 rungs

Sleep

Sleep Quality Scale validated, used as licensed

12 **During the past 7 days, how would you rate your sleep quality overall?**

Single choice · Asked (can be skipped) · `sqs_q1` · `sqs.q1`

Think about how many hours you slept, how easily you fell asleep, how often you woke up in the night, whether you woke up earlier than you needed to, and how refreshed you felt when you got up.
